An astronomy book lay propped open on the table in front of him. Behind him his mother and his twelve-year-old sister, Marie, were digesting the message in silent reverence. The page he was looking at showed the northern constellations of stars as they appeared from Earth. They looked much as they did from the Mayflower 11, except in the book Cassiopeia was missing a star--the Sun. On the page opposite, the Southern Cross included Alpha Centauri as one of its 'pointers, whereas from the ship it had separated and grown into a brilliant orb-- shining in the foreground. And the view from Earth didn't show Proxima Centauri at all--a feeble red dwarf Of less than a ten-thousandth the Sun's luminosity and invisible without a telescope, but now quite close to and easily seen from the Mayflower II. Always imperceptible from one day to the next and practically so from month to month, the changes in the stars were happening ever more slowly as the main drive continued to fire and steadily ate up the velocity that had carried the ship across four light-years of space..Chapter 25.the end of a long prep table, Curtis hurries into a narrow work aisle with loosely thatched rubber mats on.Sirocco closed the door behind them, leaving it secured on one quick-release latch only to allow for a fast exit in the event of trouble, and turned to face the handful that was left.
